WORK EXPERIENCE

Full-Stack Developer

Germany - KapyGenius / Feb 2023 - Present (remote)

During the time spent with KapyGenius:

- Design, development, testing and maintenance of various web and mobile applications.
- Collaboration with the design team to create effective and efficient user interfaces attractive.
- Troubleshooting performance and optimization issues.
- Participation in improving the company's software development processes

Web Developer

Douala-Elite Designs / 2022-2023

As a lead web developer at Elite Designs, I was assigned to carry out several web projects. During this time I worked particularly with :

- javascript, typescript, sql and nodejs (expressJs), React native
- Kanban board to organize my daily tasks

Engineer Learner

On-self / 2020-present

As an Engineer Learner, I had the opportunity to learn and grow as a software engineer in a supportive and collaborative environment. During this time , I:

- Received mentorship and guidance from experienced engineers, who helped me improve my technical and problem-solving skills.
- Participated in regular training sessions and workshops to expand my knowledge of software engineering concepts and tools.

PROFIL

Born on february 07 , 2003

Passionate software engineer, loving to learn. I am a curious and open-minded person who values diversity, equality and inclusion. Building meaningful relationships and connecting with others is important to me and I strive to make a positive impact in everything I do. I am committed to using my technical skills to create innovative solutions that make a difference in the world. With a focus on continuous improvement, I am always looking for new opportunities for growth.

HOBBIES

- Reading books
- Play games
- Learn
- Travel
